FURNITURE

Product Specification

Brand: Toledo Furniture, Inc.

Product Line: Flexible Furniture Table System

Table and Leg Assembly

- Shall be 16 gauge x 2.0" diameter steel tube leg that is electric arc welded to a .25" thick steel mounting plate and gusset to create a unitized leg assembly to support and stabilize the work surface.
- Standard: Shall use a 2-1/2" dia. Non-marring leveling glide with 5/16-18 threaded stem.
- Optional: 3" diameter 100# rated Dual-Wheel Hooded Casters. Set of 4. All swivel and 2 with brakes.
- Leg assemblies shall be constructed as specified for fixed height for table heights of 24", 27" and 29"H.
- Leg assemblies shall be constructed as specified for adjustable height tables: 24" to 36"H or 29" to 41"H.
- Shall be constructed with full fillet electric arc welds and powder paint coated.
- All joints shall be square cut and butt-jointed.
- Shall use UL listed electrical, data and communication components.
- Tables shall be assembled using 1/4-20 threaded mechanical fasteners through the leg assembly mounting plate into 1/4-20 threaded metal inserts embedded into the bottom of the work surface. All bolts shall be tightened to a torque of 6 - 10 ft. lbs.
- Tables shall be freestanding and capable of joining into unique configurations per the customers' layout.
- Includes a Lifetime warranty on all metal components and assemblies, legs, frames, raceways, and fabricated metal components and a 3-year warranty on work surface tops and laminates.
- Available in 17 standard powder paint colors.

Work Surface

- Standard: 1-1/8" thick 45lb. density NAUF Industrial Grade particle board core with HPL High Pressure Laminate bonded to the top surface and a Phenolic backer sheet bonded to the bottom surface to balance the core against fluctuations in moisture and humidity.
- Standard: 1-1/8" thick 45lb. density NAUF Industrial Grade particle board core with wood veneer bonded to the top of the work surface. Veneers are available in Ash, Oak or Maple. Cherry and Walnut are available at an additional cost. Contact our offices for details.
- Standard: 3mm PVC Edge Band in colors coordinating with available laminates or black.
- Standard: Solid wood Edge Band is available on work surfaces with laminate or wood veneer. Species available include Ash, Oak and Maple. Cherry and Walnut are available at an additional cost. Contact our offices for details.
- Work surfaces shall be CNC routed for precision placement (within 1/32") of electrical, data and mounting devices.
- Work surfaces shall be available with Post formed Laminate edges on the front and or back.
- Work surfaces shall be offered with any standard grade HPL High Pressure Laminate from Wilsonart®, Formica®, Pionite® or Nevamar®.
- Optional work surfaces shall include: Chemical resistant Chemsurf, Epoxy or Phenolic Resin, Stainless Steel over an MDF core and Maple Block.

FURNITURE

Wire Management Troughs and Channels

- Shall be full table length and have interior dimensions of 6.25”H x 5.5”D.
- Shall be capable of routing all electrical, data and communications lines.

Adjustable CPU Holder and CPU Rack

- Adjustable CPU holder mounts underneath the work surface at either the right or left side position.
- Constructed of steel with adjustable width (5”-9½”) and height (15”-21”).
- Finish is smooth black powder coat.

Modesty Panel

- Standard: 18 ga. steel construction x 10”H x Table Length. Panel is formed to remove sharp edges and stiffen the panel. Mounts to underside of work surface with threaded mechanical fasteners.
- May be combined with Wire Management as a system.
